PEDRO PAPP

AI enthusiast with an international background, and with a focus on Business intelligence. In every role and on every project, I bring a blend of logical reasoning, analysis, and curiosity which enables me to locate pain points and develop improvements.

PROFESSIONAL EXPERIENCE

Ezshop/2024

Prompt Engineer

Developed an internal web application leveraging fine-tuned transformer models to create SEO-optimized content for e-commerce platforms, saving hundreds of work hours for content writers

- Led project management, including SRS development and agile methodology implementation
- Navigated cross-functional teams (developers, SEO specialists, content writers)
- Implemented advanced prompt engineering strategies and model fine-tuning
- Integrated fine-tuned models into MEAN stack architecture with user-friendly interface.

Minuano/2021

Intern - Data analyst

Real estate data analyst of the company, acting in the following activities:

- Cost control and cost analysis.
- Real estate research and analysis in different states for pricing purposes, facilitating purchase and sale decisions.
- Organizing, archiving and scanning contracts and documents, developing and implementing cloud access and thus resulting in easier access by the sales team.
- Assemble spreadsheets including comparative analysis of real estate prices, according to different indexes of correction.

OTHER EXPERIENCE

- WebSummit Lisbon Scholar Attendee 2021/2022
- Social activities involving communities in need connected to environmental causes. (200 hours of volunteer work)
- Worked as a waiter/bartender, as a gardener, and as a nanny
